

Over 1 million people have died due to COVID-19.

More than 16 million American adults are living with Long COVID, 250,000 children have lost a parent or caregiver, and millions more have faced repercussions in their families, communities, and jobs.

We're fighting for **change**

- Mental and health supports for Long Haulers and impacted families
- College scholarships and baby bonds to children who lost caregivers or parents
- Expanded access to Medicaid
- Better education for medical professionals about Long COVID
- And other important policies

COVID Survivors for Change is a nationwide community fighting for a stronger pandemic response to save lives by **supporting** COVID survivors, **remembering** those who have died, and advocating for public health measures to **prevent** future pandemics.

OUR FREE RESOURCES

We offer trauma-informed resources, share survivor stories, and take action to bring about legislative and cultural change:

- **COVIDConnections:** Free weekly support with mental health professionals in English and Spanish
- **State Advocacy Teams:** State-based advocacy teams for community-based change
- **Healing and learning:** Free programs including advocacy trainings, writing workshops, and grief yoga

PROGRESS SO FAR

Raise awareness:
COVID March to Remember 2022, with over 1000 attendees in 22 states

More support for COVID survivors:

California to give 'baby bonds' to children who lost parent or guardian to COVID

Delaware Paid Family and Medical Leave Law Signed
