*We apologize for the Play & Learn Post's brief hiatus during May and June. We are back and ready to keep the great Play & Learn content coming!*

### Curriculum Corner

The first month of summer camp is complete and our campers are learning so much! Check out some of this month's highlights below!

To kick off camp, students created their own little suns using paper plates and paint! They explored their creativity and expression while also learning about the sun. This fun start to a summer full of learning was the perfect way to engage students' minds and creativity!

Students at our Norristown center got to meet animals and experience the beauty of the world around them! During this experience, they fed, pet, and observed the animals. This allowed them to learn more about what it means to interact with other living things and respect their environment.

Summer camp is always the best time for water play, and many centers had their first water play sessions this month. Students followed teachers' directions about water safety and taking turns. By constructively participating as part of a group, each student got to have loads of fun during water play!

Make sure to follow Instagram & Facebook to stay up to date on all of our summer camp fun!

## TRANSITIONING TO KINDERGARTEN

### Discussing Development

Summer is here, and preschool graduates will soon be starting kindergarten which can be an adjustment for families. Read our blog post for tips on how to support your child, and yourself, throughout the kindergarten transition!
