

United Way of Logan County's 8th annual Community Care Day is set for Friday August 25. And while that SEEMS like a long time away, it will sneak up on us before we know it. And I don't want you to miss out on an opportunity to cash in on some FREE volunteer labor!

You see, Community Care Day is United Way's annual corporate workday. And we will have hundreds of hard-working, enthusiastic, skilled volunteers from our local corporate partners all anxious and ready to crank out their pre-coordinated service projects that day. Last year, we had over 400 volunteers crank out 40+ projects throughout the county.

Now imagine if YOUR ORGANIZATION had a workforce of up to a dozen volunteers (or more) at your disposal for an entire day. What type of work could they do to advance your mission or serve your population? What type of improvement project could you have them do at your site? What's been on your wishlist that you haven't been able to accomplish because of time or manpower constraints? This is your chance to be creative and think big! And with time to plan, there's no reason to think ANY project is outside the realm of possibility. How about things like:

- "Handyman" and small construction projects
- "Assembly-Line" projects
- Hang posters / literature distribution
- Hands-on opportunities with your clients, like meal distribution
- Deep cleaning
- Painting
- Yard work / landscaping
- Sorting / Moving
- Building a website or social media presence

You could even submit more than one project, and have more than one volunteer group!

FRIDAY AUGUST 25, 2023

COMMUNITY CARE DAY 2023 - PROJECT REQUEST FORM

Please return by FRIDAY JULY 28 to:

Dave Bezusko via e-mail at: dave@uwlogan.org OR mail to:

United Way of Logan County

653 S. Main St.

Bellefontaine, OH 43111

PROJECT DETAILS

YES! I know of a project that a group of two or more volunteers would be able to complete on Community Care Day 2022 (Friday August 25). Please base your project request(s) on the attached Project Parameters.

Description of work to be done on Community Care Day (Friday August 25):

of Volunteers required to complete the work in 4-6 hours: _____

Skill set(s) required to complete the project: _____

Could beginners complete the project on their own? _____ Yes _____ No

Our organization can provide: _____ All tools and materials needed _____ Some tools and materials needed

Tools volunteers would need to bring: _____

Additional Materials Required to complete the project: _____

This project is weather dependent: _____ Yes _____ No

Will someone from your organization be present to supervise the volunteers? _____ Yes _____ No

Their Name and Contact Information: _____

United Way of Logan County's 2023 Community Care Day will be held on FRIDAY AUGUST 25.

Because of limited resources, United Way cannot respond to all project requests submitted for completion on Community Care Day. The following shall serve as guidelines to determine the feasibility of completing requested projects.

United Way will work with existing social service providers to help distribute Project Request Forms and determine eligible recipients.

A Community Care Day project should fit into one of the following categories:

1. Provide help to a non-profit or community-based organization (do not have to be a United Way Funded Agency to qualify).
2. Provide a service that enhances the quality of life for area residents (ex. Working with local government on a park improvement project.)

Requested projects should take place in Logan County or at the site of a United Way Funded Agency (ex. If Boy Scouts requested help at their camp, which is in Clark County.)

Requested projects should be able to be completed by the team of volunteers in a single day. Ideally, projects would take between 4-6 hours to complete.

All projects will be completed by at least two Community Care Day volunteers. No one will be sent to a project alone.

Also taken into consideration will be:

The number of volunteers needed to complete the project.

The level of skill required to complete the project.

The availability and accessibility of materials and to complete the project.

The safety of volunteers.

Funding, materials, and tools for Community Care Day projects will need to come from:

1. The project recipient is asked to provide some or all of the necessary materials.
2. In-kind product donations from area businesses. (United Way does not solicit for you.)
3. The volunteer group doing the project.

Volunteers are typically expected to bring typical household tools and/or supplies from home to help (rakes, shovels, garden gloves, rags, etc.).

Volunteer groups could choose to fund projects or bring materials if they choose to adopt a project that requires them for completion. It would be made known well in advance that this is needed at the time of project selection.
