

# OUTLINE OF EVENT

## LMTT Charleston Partners

Code SEK

## Seakeeper Ride

Seakeeper continues to change the boating industry by introducing the Seakeeper Ride system. The leader in controlling marine motion control will launch their Ride system to the aftermarket through Lewis Marine at Marine Tech Tour Charleston. This class will show dealers how to spec, install and service the system. VIP Experience - customers will be treated to boat rides to FEEL the system in action. By invitation only.

  
On-Water Session  
\* Must sign liability waiver for on-water demos at event.

  
Classroom Session  
Attendance will be based on registration submission.

Code DOM

The leading brand in outdoor lifestyle will focus on new product launches from Sierra and Dometic Seastar. The class, which will qualify for Foundational and Ride & Handling Tech 1 certification, will cover key concepts in steering systems, along with proper system selection, installation, and maintenance. Systems covered include mechanical, hydraulic and the latest electric assist systems. Classroom training also covers the new Dometic Trim Tab system and Xtreme Power Assist Electric steering system, with boat(s) available to experience each system in action. Trained technical and sales associates provide increased boater satisfaction, while reducing labor and warranty costs at and after installation. Boats will be on-water to demonstrate several products in action and allow customers to feel the differences.

Code LEW

Lippert Marine - the global leader of top-performing boat accessories and components, will be focused on imparting in-depth technical knowledge about NEW products from Lewmar. Our training program will elevate your technical expertise on anchoring and better equip you to serve your customers and grow your business.

Focus products:

- Lewmar Axis Shallow Water Anchor and Windlass Anchoring Systems

Code UFL

The premier leader in marine steering and control will be showcasing the most efficient, highest quality, and top-performing steering systems on the market. With the purpose of our mobile marketing unit, Uflex will offer hands on technical training to cover, system configuration, application & installation, and proper preventative maintenance to ensure the best experience. Uflex will have a full walk-through and engaging training to canvas our elaborate mix of high performing mechanical and hydraulic steering systems, as well as our broad array of throttle and shift controls, trim tabs, self-contained air conditioning, and more! Our cohort of technicians and sales partners will provide the confidence and assurance of Uflex's mission – the best boating experience possible.

MASTERVOLT

ProMariner™

BLUE SEA  
SYSTEMS

RELiON™

*Code BSS***Lithium Battery Systems – Fact, Fiction, and Key Components**

This class will review emerging Lithium battery technology, features, benefits, and the additional products needed to support small and large systems. Key components will be featured from the company's POWER SYSTEMS brands including Blue Sea Systems, Mastervolt, ProMariner, and RELiON.

Kevin Lacy will be presenting. With over 25 years of experience in sales and product development, he is an expert in electrical products for the harsh marine environment. Kevin launched his career in 1992 with Blue Sea Systems as the company's first product development engineer. He holds ABYC and NMEA certifications - Marine Electrical, Marine Systems, and N2k. And resides in Florida where he remains focused on technical sales and training.

Navico Group is defining the future of boating through a comprehensive portfolio of navigation solutions, state-of-the-art technology and intuitive systems. Our marine brands include Ancor, Attwood, BEP, Blue Sea System, Garelick, Guest, Lenco, Marincos, Mastervolt, Motoguide, ProMariner, RELiON, Whale, B&G, C-MAP, Lowrance, Navico, and Simrad.

*Code CCL*

CMP Coatings introduces Seajet PellerClean – the latest technology in propeller and underwater gear coatings.

This class teaches you the differences in metal coatings and how to spec and apply successfully.

*Code PRE*

Presta® Marine is a Malco® Products, Inc. brand that has supplied the marine industry with premium detailing products to clean, restore, and protect boats and personal watercraft since 2009. Presta Marine manufactures and markets marine detailing products to help maintain a boat inside and out. Used widely by marine OEMs and professional detailers, the Presta Marine product portfolio includes boat washes, general purpose and specialty cleaners, compounds, polishes and waxes, coatings, interior cleaners, and more. In this class learn how Presta Marine makes boat detailing easy for professional detailers and marine enthusiasts.

#### Code RUL

Reliability. Engineered solutions. Fluid management science. These terms collectively describe the brands of Jabsco and Rule. They represent a legacy of marine innovation that spans almost 90 years, and account for millions of quality marine products sold and used around the globe.

At the Lewis Marine Dealer Training Event, we are bringing in our technical specialists to school you on pumps and toilets. We are bringing our big hitters with almost 60 years of recreational and commercial marine experience. Paul Campagna is our "HEAD" technician and serves as Market Applications Manager for our Rule and Jabsco brands. Paul has been in the marine industry for over 25 years and was an engineer on a commercial fishing boat (85 ft. prawn trawler) in Australia. He has been with Xylem for nearly 10 years and was frequently out to sea on trips that spanned 100+ days. Don Walsh will lead the training and has over 33 years of experience in buying and selling in the marine industry. Although in sales he is hands on and very technical with pumps, toilets, and impellers.

We look forward to pumping up your technical skills!

#### Code CAM

VETUS Maxwell sets the global standard in the design and manufacturing of complete onboard boat systems for recreational and small commercial vessels. As "Creator of Boat Systems," VETUS Maxwell embraces a philosophy of developing complete solutions to innovate in support of the mission: ease of use and turn-key installation. This class will give you both a solid overview of some of our most in-demand systems, including features, benefits, options and new developments as well as insight into best practices regarding installation, maintenance and troubleshooting. Topics to include: VETUS Bow Pro Thrusters, Maxwell anchoring solutions and the latest on our multiple joystick integration partner systems including Mercury, Yamaha, Cummins, Glendinning and Yanmar Marine.

#### Code AWL

Topcoat Review

Awlgrip Systems for different substrates

Awlspec Specifications

Code VIC

At Victron Energy we believe a boat needs an intelligent power grid that adapts to any challenges you may encounter. With unparalleled reliability, without effort and at great value for money. That's what we call Optimal Energy. Our Training class will be done on a pre-wired system for attendees to program and connect various components such as split phase programming, Cerbo connections and remote monitoring set up.

---

Code SPG

Come see why Smartplug is developing and providing innovative world-class solutions that make power delivery safer, more secure, and easier to use.

We are the revolutionary shore power system designed to replace the outdated and problematic twist-type design in use today.

---

Code SMU

Sun Abrasives Co. Ltd was established in 1961. Our goal is to supply the highest quality products to the Marine market. Let us show you why not all abrasives are equal and why the choice is clear when the job requires the most demanding applications.

---

Code S/D

The Sea-Dog Line has been manufacturing quality marine, industrial and defense hardware and supplies to the OEM and Aftermarket sector since the 1920's. In fact, we are celebrating 100 years in the marine industry: 1923-2023.

Our in-house Product Development team troubleshoot, innovate and deliver a wide array of Marine and Industrial solutions. With over 6000+ parts in our inventory we have what you need! Another fact about Sea-Dog is that we are one of the last, truly 2-step manufacturers. This means that we do not compete against you in the retail sector.

We are excited to share our technologies including MADE IN THE USA injection molded marine designs featuring Rod holders, Racks, Cleats and more. We also offer a full line of horns and electrical products that we will be discussing during the Lewis Marine Tech tour.

Please stop by the booth and say hello. We will have some giveaway items and swag to hand out while we are answering your questions.

We look forward to speaking with you!

Code AER

Even though the market has gone outboard, there are still many inboards in service. Lewis Marine and AER Motors have partnered to bring new and rebuild inboard motors with easy access and availability. Let AER teach you to identify old inboards and cross reference new or rebuild applications for a seamless sale.

Code TPP

Stop by the Expo to learn more about Turning Point Propellers' "better than OEM propeller designs" in both performance and price, paired with the industry's only lifetime warranty MasterGuard propeller hub systems (replaceable even after impact). While there check-out how you can cover 70%+ of the prop market with their new 13 prop 3ft Plan-O-Gram and how it compares to the traditional rubber hub prop program that requires a 112 prop investment. Ask how to turn your prop inventory faster with Easy-To-Sell tools provided by Turning Point that makes everyone a prop expert. Turning Point manufactures high-performance aluminum and stainless steel propellers for powerboat applications in the 6 to 400 hp+ range. It is a primary manufacturer operating aluminum and stainless facilities with ingot to pallet vertical integration. They have new tools, the latest metal forming technology, and unbeatable aggressive designs

Code DOC

Software for Marine Services

DockWorks is the only software solution built specifically for marine service professionals.

It's time to mobilize and modernize your business and set a new standard for the marine services industry.

Code AZA

Learn about Azuna T/T Marine all-natural antimicrobial tea tree oil-based odor eliminator & air purifier gel that delivers fresher, cleaner air on board your vessel.

Code PAR

Parker offers compact watermakers that are easy to install, maintain, and operate, making them a perfect solution for small power boats and sail boats.

Code SHC

At Shadow-Caster we specialize in both underwater marine LED lights and above water marine LED lights, such as marine LED spreader lights, marine LED down lights and marine LED courtesy lights. Let us show you how our marine LED lighting systems provide complete control for single and multi-zone boat installations, NMEA 2000 compliant marine lighting controls and controls using your boat's multi-function display (MFD).

Code DLB

WE BELIEVE QUALITY IS MEASURED BY LIFESPAN - HOW LONG A BATTERY LASTS - That's why here at Dakota Lithium we focus on building batteries that last a long, long time. By harnessing our unique chemistry and engineering know-how Dakota Lithium lasts 4x longer than traditional batteries, providing lasting value for our customers, and reducing e-waste and the impact on our planet. All backed by a best in class 11 year warranty.

Reliability is one of the reasons why Dakota Lithium has become to top choice of tournament anglers. Dakota Lithium powers Hank Cherry, the 2021 Bass Pro Champion. Brock Mosley, one of the top 5 pro bass fishermen, is powered by Dakota, and of the top 10 pro-bass athletes in the industry, six were powered by Dakota Lithium.

Code MMT

Makers of the finest galvanized boat stands.

Code LAT

Sika has a marine repair solution to meet your demanding boat maintenance requirements, making Sika Marine the perfect choice for any boat owner. When it comes to repairing your boat, don't settle for anything less than The Professional's Choice - choose Sika Marine!

Code TAC

For over 6 decades, TACO Marine has been designing and manufacturing marine products for all types of boats. TACO's extensive line includes boating parts and accessories in areas of sportfishing, rub-rails, seating, electrical, canvas & shade, marine lumber amongst many others.

*Product Spotlight at LMTT:*

- **TACO's SuproFlex Rub Rail Kits** – the most lightweight and ultra flexible, and UPS/Shippable, rubrail kits.
- **ShadeFin** by TACO Marine – the most portable and robust shade system on the market, ShadeFin easily attaches into any rod holder, giving boaters full protection against harmful UV rays.

Code TEP

Trac Ecological – the makers of the original and still only Barnacle Buster - 100% environmentally friendly, non-toxic, and biodegradable. See why we make the Industry's best descalers, cleaners and degreasers for a variety of applications.

Code ARC

Proven dependability makes ARCO Marine the trusted source for OEM quality or better alternators, inboard starters, outboard starters, and tilt/trim motors. Nearly 60 years ago, ARCO Marine set the gold standard for marine engine parts. We test and retest every unit manufactured beyond normal operating conditions. That's how we know we deliver the highest quality, most reliable parts available.

Code JMP

JMP founded in 1977 has been in the sea raw water pump business for markets around the world manufacturing OEM and replacements pumps for all Major Engine companies. JMP is a certified ISO 9001 company in providing quality controlled products. Other lines are impellers and strainers. Check out our videos at [www.youtube.com/@jmpmarine](http://www.youtube.com/@jmpmarine)

Code GDL

Driven by Quality! With brands like 303 and STA-BIL we make sure that your marine vehicles are taken care of so you can spend more time where it counts – on the water.

With the 303 product line our goal is to stand the test of time, and our products reflect that. We have a deep understanding of the natural forces that can harm your possessions, like harmful UV rays, high-speed winds, water damage, and the natural wear of time. Using this knowledge, we formulate the most effective solutions possible from our Protectant and Fabric Guard to our newest chemistry of Touchless Sealant and Graphene.

And while 303 has the appearance of your possessions taken care of, our STA-BIL products will make sure the engine is taken care of. STA-BIL is America's most preferred Marine Treatment that is engineered to combat the effects of harsh marine climates, provides defense against the harmful effects of ethanol-blended fuels, and has industry-leading water removal properties.

Code SWB

Come see our unique cleaning system, which includes our patented, "Perfect Pole". Our system is designed with a greater strength and built for ease of use. Our patented Perfect Pole easily attaches with over 16 different types of quick-change heads. Our premium cleaning tools and accessories range from brushes, drying mops, soft wash tools, swivel plates, maintenance kits and boat hooks.

Code SHC

Headquartered in Hickory, N.C., Shurtape Technologies, LLC, is an industry-leading manufacturer and marketer of adhesive tape and consumer home and office products, with facilities in the United States, United Kingdom, Germany, Mexico, Peru, United Arab Emirates, Australia and China. At Shurtape, we know tape is a critical part of the job. And that a single mistake can ruin the entire project. That's why we offer a complete portfolio of tape solutions that are engineered to perform in challenging marine applications. From durability and versatility to clean removal and crisp paint lines, our tapes deliver results you can rely on to get the job done right the first time.

Code W/M

Weld Mount adhesively bonded fastener system revolutionized the industry by providing a weight reducing, lower cost, less invasive joining solution. Designed to bond to almost any surface for a variety of applications including studs, metal bonding, accessory mounting, electrical wire management, battery cables, pump and panel mounting, crane surface mounting, hydraulic lines, vent attachments and more while improving load-bearing capacity and fatigue resistance. While eliminating stress point concentrations with even distribution of entire bonded surface; reducing galvanic corrosion when the adhesive acts as an insulator when bonding dissimilar metals; and providing resistance to shock, vibration, and thermal cycling over mechanical or welded assemblies.

Code GRO

Groco continues to innovate on-board components and systems while providing unsurpassed quality. From the innovative E-valve – that provides automated seacock control throughout the boat with optional wireless monitoring and view on a touchscreen at the helm via the NMEA2000 backbone- to raw water strainers, fittings (many now available in stainless steel), pumps, water pressure systems, marine sanitation system components and heat exchangers.

**Code JBL**

JBL has recently undergone a revamp to the marine lineup. The brand that was on stage at Woodstock '69 and is seen throughout the world in movie theatres, concert venues, is ready to bring sound to life. We know that there are a myriad of options for audio, and JBL is ready to prove that it is a serious contender in the sound category. JBL just unveiled new marine source units as seen with the WAKE series. The all new WAKE series is comprised of the JBL-R3500 and JBL-R4500, each having unique features designed to meet varying levels of pricing. In addition, JBL has three series of speakers + subwoofers, amplifiers, remotes, waketower speakers and much more! JBL: Dare to Listen.

---

**Code WHC**
