

YOU'RE INVITED!

HEP FREE NNE

KICKOFF SUMMIT

Ending Hepatitis B & C in Northern New England

Hepatitis Free Northern New England (Hep Free NNE) is a tri-state initiative bringing together stakeholders across Maine, New Hampshire, and Vermont to join national and global efforts to end viral hepatitis B & C.

OCT 5, 2023

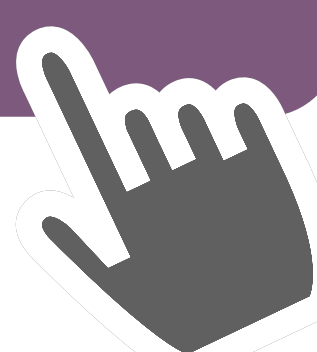

9:00am - 12:00pm

Virtual summit

No cost to register

REGISTER NOW

View the full agenda!

During this **CDC-funded** virtual summit, attendees will:

- Learn what the most recent local data says about hepatitis B & C in ME, NH, and VT.
- Participate in interactive workshops alongside people with lived experience to prioritize goals.
- Lend their voice and experience to launch a community-driven elimination planning process.

Who Should Attend: Anyone who works on or is impacted by hepatitis B & C is encouraged to attend. Your attendance will help to amplify diverse voices and a spectrum of perspectives, including:

- People with lived experience with drug use and harm reduction
- People who have/had hepatitis and their families and caregivers
- Syringe service programs
- Harm reduction programs
- SUD treatment programs
- Mental health services
- Organizations serving people with higher risk
- Faith-based organizations
- Pharmaceutical industry
- Commercial pharmacies
- Correctional facilities
- Medical/professional societies
- Maternal and child health programs
- Advocacy organizations
- FQHCs and rural health centers
- Hospitals and EMS
- Medicaid
- Managed care organizations
